The Saint Thomas Choir School is a residential school for Boys in grades three through eight. All Boys in the school sing in the Choir of Saint Thomas Church. The student body, drawn principally from the East Coast, is quite diversified. Though they come from a wide variety of economic and cultural backgrounds, the Boys all share an involvement in music and a high level of academic ability.

The Reverend Charles F. Wallace
Headmaster, The Saint Thomas Choir School

THE CHOIR

The Saint Thomas Choir is considered by major critics both here and abroad to be the outstanding choral ensemble of the Anglican musical tradition in the United States today.

Besides offering a full annual concert series with orchestra, the Choir of fifteen Men and twenty-two Boys sings at five weekly principal worship services of the Church, preparing an astounding four hundred pieces of sacred music a year. The Men of the Choir are professional singers; the Boys attend The Saint Thomas Choir School, the only church-related residential choir school in the United States, and one of only four similar schools remaining in the world. In August of 2004, The Reverend Charles F. Wallace, former Chaplain of The Choir School, was appointed Headmaster.

Far more than a "music school," The Saint Thomas Choir School is a fully accredited academic institution for boys from eight to fourteen, with a study program of English, mathematics, history, science, art, Latin, French, music theory, and instrumental instruction on such instruments as piano, viola, cello, flute, trumpet, and clarinet. Situated in a striking building a block from Carnegie Hall, the school provides a warm family atmosphere, where the pastoral care is overseen by the Headmaster and assisted by two registered nurses. The boys are taught by nine full time teachers and ten part time instructors, and prepared by graduation to go on to leading preparatory schools or return home to local secondary schools. Approximately eight new boys are accepted each year on the basis of vocal aptitude (with or without previous musical training), scholastic ability, and suitability

for the chorister lifestyle. Maximum enrollment in the Choir School is forty boys, all of whom receive substantial financial support from Saint Thomas Church.

The Saint Thomas Choir was the first American group invited to be the choir-in-residence at King's College, Cambridge; they have concertized and sung services at Westminster Abbey, Saint Paul's Cathedral in London, the Aldeburgh and the King's Lynn Festival in England. They have appeared with the New York Philharmonic, the Cleveland, Pittsburgh, American, and other symphony orchestras at Lincoln Center and Carnegie Hall, and they gave the world premiere performance of Andrew Lloyd Webber's *Requiem* with Plácido Domingo at Saint Thomas, taped by the BBC and televised internationally. In 1993, the Choir along with Jessye Norman sang a special concert benefiting The Store Front School. The Choir's concerts and services are frequently telecast and broadcast nationally and abroad, and they have recorded both their own repertory of music from the fifteenth century to contemporary works as well as popular songs with such artists as Judy Collins and Carly Simon.

ABOUT THE ORGANS

The Great Organ of Saint Thomas Church was built in 1913 by the Ernest M. Skinner Organ Company of Boston, and installed when the present building was first used for services that year. It was extensively revised and rebuilt in 1956 by the Aeolian-Skinner Organ Company, also of Boston, under the personal direction of G. Donald Harrison. It was then dedicated as the Arents Memorial Organ, given by George Arents in memory of his wife. Further revision of the instrument was completed in the late sixties by Gilbert Adams of New York, and in the early eighties by Mann and Trupiano of Brooklyn.

The current organ includes tonal designs which are characteristic of the organs of Bach's time. In addition, it is especially notable for its French Romantic colors. Consisting of six divisions, the instrument features a Trompette-en-Chamade under the rose window over the Fifth Avenue entrance. There are four manuals, 138 ranks and some 9,050 pipes. The organ console is hidden from view at the left of the chancel.

In the spring of 1996 the new gallery instrument was dedicated as the Loening-Hancock Organ. The firm of Taylor & Boody of Staunton, Virginia built the instrument which contains twenty-one stops over two manuals and pedal. The instrument is inspired by the tradition of organ building which was active in the Netherlands and North Germany in the seventeenth and eighteenth centuries. Stop and key action are mechanical and the temperament is Kellner.

The Martha J. Dodge Positive Organ was built and initiated in December, 2001. This superb portative instrument, consisting of 4 ranks of pipes, was built by the firm of Taylor & Boody.
